ABOUT US

Masson Appointments prides itself on forming sincere and lasting relationships with the companies that we work with. We have companies ranging from one-man bands to large multi-nationals and are aware of different company cultures and attitudes. We believe that every company has unique requirements and by working with us we can actively select candidates that can help to fulfil your business objectives.

Listening to your needs to ensure we provide a service based on quality, honesty, consistency and integrity.

SERVICE

Masson Appointments is officially recognised by the Recruitment and Employment Confederation and we keep up-to-date with employment legislation and new proposals that can affect businesses.

We work hard to maintain our market reputation with clients and candidates alike, and we are obsessed with working to an exceptionally high standard that is personal and targeted to your exact requirements to ensure total satisfaction to all parties concerned. To this end, we work extremely hard to deliver what we say each and every time.

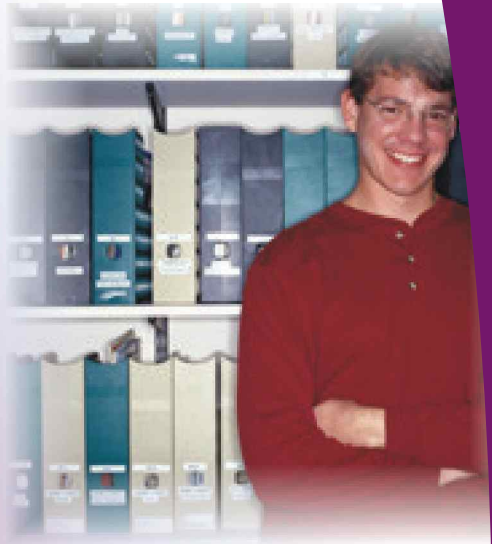

CANDIDATES

Our interview process for candidates is unique and detailed. We take a real pride in getting to know our candidates so that we understand their goals, motivations and career aspirations. With this knowledge we are in a strong position to find them the rewarding career that they are seeking and also for you to have loyal and dedicated employees.

We insist on meeting everyone before submission to ensure the perfect skill set and personal ability to effortlessly integrate with existing company members.

Our candidates are thoroughly briefed prior to meeting with you so that they understand fully the role specification, company culture and all necessary requirements.

We are very selective in the candidates that we put forward. We want you to meet with people who are passionate about working for your company and who can make a real contribution.

OUR PHILOSOPHY

In the ever-changing workplace, companies want employees who are talented, smart and well qualified. By working with you and understanding your aims and company culture we will provide staff who are precisely matched, motivated, enthusiastic and keen to become integral members of your company.

ADVICE AND SUPPORT

As well as providing staff, we can help advise on current salary scales, market forces and salary reviews.

We can also offer assistance with your strategic planning by providing a tailor-made package to work around you and to provide ongoing communication and support.

We can help plan and foresee recruitment requirements before they happen e.g. take-overs, new contracts being awarded, maternity/ holiday cover etc. so that you are never without the essential staff you need.
